

Superconscious Leadership

1 truth a.k.a. The Foundation Rule

The 1 truth ties to the post-materialistic physics view that the foundation of all is CONSCIOUS AWARENESS. Even our universe exists in conscious awareness.

3-FOLD MISSION

Amplify love

Call back to love that which has become unaligned (anything that has taken on an imprint other than love)

Be a guardian for love (steward, protector)

Visions are future-focused, but as TiQi leaders we like to speak in the now.

Vision

What's your vision?
What are you creating?
We are creating...
I am creating...

Values

TiQi leaders generally have the core values of: contribution, compassion, kindness, service, etc. What are your core values?

5 Guiding Principles

- Being kinder than necessary
- Sizing up the suitstuff / Seeing past the persona
- Focusing on value / Making tomorrow better than today
- Thinking & working holistically
- Connecting to the Superconscious

Guiding principles are magnetic recommendations that guide our behaviors, decisions-making, action taking, and thinking! TiQi leaders put an in-the-now spin on wording... For example "Focus on value" is a popular guiding principle. We say "Focusing on value."

We need GP's less & less as more & more we show up as LOVE.

More and more we effortlessly show up as LOVE... as the heart-shaped eye of any storm.

Love is all there is, all that matters, and the only answer. Always.

Knowledge Compounding Approach™

Learn like you took a rocket instead of a walk. KCA uses connected, science-backed models that respect your brain, body, and inner parts. Each model gives the next one a place to land, so learning clicks faster, sticks longer, and compounds instead of piling up as disconnected information.

Roadmap

Meet your team where they are!

83% of the workforce is in chronic-stress mode

Fave Tools

- The SEC Check™**
a.k.a. the feather-O-meter
somatic ~ emotional ~ cognitive
- Neuro-positivity**
based on Dr Barbara Frederickson's work in Positive Psychology, Dr. Jaack Panksepp's affective neuroscience, etc.
- Multiplicity of Mind**
using the Mind CREW™ model
- Neuro-oscillatory Practices**
Brainwave-based approaches, e.g. Havening Techniques®, Tapping, and Am-fullness™
- Business Fractals™**

We embrace our irreducible, ever-perfect **being-ness** as the Omniversal Self / Quantum Self / True Self, etc. We embrace our **human-ness** by acknowledging the helpful/"helpful" nature of the biological spacesuit and our parts.

The biological spacesuit is only ever helpful / "helpful"
